## Contributions to Industry

As a major contributor to Taiwan's economy, NCTU has laid a firm foundation for the nearby Hsinchu Science Park (HSP) – the Silicon Vally of Taiwan. The strategic location provides students with many opportunities to participate in leading technology experiments in collaboration with high-tech companies in the HSP and the surrounding national research facilities. NCTU students also have an advantage in getting internship and work in the HSP.

NCTU has a strong and extensive alumni network with numerous distinguished alumni in academia, industry and government. In fact, nearly two-thirds of the CEOs and general managers in high-tech companies in the HSP are NCTU alumni. One successful alumus of foreign origin is Khein Seng Pua, an overseas student from Malaysia who co-founded a listed company in Taiwan, Phison Electronics Corp. These engagements with industries make NCTU students advanced in their professional career and personal life.
